Mrs. D. G. Simpson and children, from Kansas City, have very pleasant rooms at the Grand Central

Beath from Paralysis. Mrs. Mary Collins, aged 65 years, who resided with her two grown daughters on south Third street, died Sunday night at 10 o'clock. Until last Saturday morning she has always enstricken with paralysis and never regained consciousness afterward. Mrs. Collins came to this climate a long time ago with her two daughters, one of whom wasasufferer of asthma. Th remains of Mrs. Collins will be shipped to her former home in Bridgeville, Pa., on Thursday evening, where th relatives will give them burial in the family burying ground. It is under stood her surviving daughters will con thous their restitence in A.buquerque.

A TEMPERANCE TALK.

Meeting at Besidence of Mrs. Harding-Talk by Mrs. Wilson.

Yesterday afternoon the Woman triation Pemperatice union met at the ome of Mrs. J. W. Hurding on Fourth usiness of interest only to the Union now present were favored with the uding of an interesting paper by Mrs . E. Wilmon on the subject of "Pres Work." Bits said: The most important factor in the

world's progress to day is the daily owepaper, reaching as it does all glasses people in all classes of environment and occupations. Moulding as it does public opinion in value is too fremosic sderenismated in reform work. The The Women's Christian Temperance union has a department devoted exciusively to the publishing of leaflets and tructs. These are excellent in their way out too often fall in their mission, be cause the class they are intended to reach do not read them. We temperate people read and enjoy, but the drinking men cants them aside, not even reading the head litter. Now, every hidy readthe newspaper, whilst throughout this broad land there is scarcely a home so impoverished or so primitive which has not an weekly or daily visitor at least one paper. Now it is my conviction that one-half a column devoted to bright emperance talks in our daily papers and child reported doing nicely, and accomplish more good than all the tracts clarified attending to his duties at this ever written. Wonderful is the power omplish more good than all the tracia of the press for good or for evil.

After calling attention to the drink bab. t and the brothels that flourish in Albuquerque, Mrs. Gilbert concluded her re-

a guest at the Nudeau, talked of the the pumping station at Rincon blew Mr. Prince. 12.500 have been saved by up. Daniel Cash, the brother of Edvice present board out of the territorial too to 105 degrees in the Arizona thermal control of the control of mometers does not affect one as much AR S5 or 90 degrees in this city. He says things have been unusually luli in Armona of late, but he expects

to see it improve. The mineral deposits have not been much more than scratch-Williams. The trouble is that thus July 1, or otherwise to he returned to far nobody has been into the territory with sufficient sand to put down a rangements were made for the expen. shaft several hundred feet into the diturn of this money in additions to the earth. Few shafts in the whole terrilibrary to the amount of 2500 and of lory have been sunk over 100 feet. The the remaining \$5,000 \$5,000 is appropriated Congress. Tennessee and other mines the agricu'tural division for the pur, as they go down fird the largest chase of experimental stock and im. bodies of ore, but they do not continue proved implements, and the balance for us they should into the bowels of the machinery and aparetts for the mechan. carth. The Han Francisco mine, which real department and for the banest of fine recently been sold, Mr. Mehr thinks will come to the front very rapidly under the new management, for the owners are men who will put down a shaft It is of great interest to the west to where the richest deposits are. The that the conference committee of the great trouble with mining in Artsona tives has reached an agreement upon a owned and worked the mines got out bill permitting persons who have fail- enough to enjoy life for a while they ed to perfect their homestead claims to would stop work and go and spend the money, then come back and go at it This lifts a prohibition upon bome. again. One French company has of ead entries which prevented many late taken hold to some extent and is ersons from making them in new sec. now making preparations to get some one of the west because they had of the deposits from the bed of the Culreviously entered land under the urado river. All that Arizona needs in nestead law elsewhere. The law the estimation of Mr. Mahr, is men entemplates that each person shall with capital to invest in the nines

Mrs. H. Schoffelberger and son, of stead slating have falled entirely to do. Belon, who were here the past few ve any benefit from the law being days as the guests of Rev. and Mrs. denied the right to make a second an-try even under those conditions. It to their old home in Mansas. Mr. The new law will restore the right Schoffelberger remains in the city.

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effect matter which poisons and clogs the blood, and it becomes sour and acid.

This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and cruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or leas severe. While the skin is the sent of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and soriches the blood, and thus relieves the system of all poisonous secretions. healthy action to the different organs, cleaness and soriches the blood, and thus relieves the system of all poisonous secretions.

8. S. Cures permanently because it leaves none of the original potson to referment in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all.

S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has seen curing blood and skin diseases for half a contury; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—is purely vegetable and harmless.

Our medical department is in charge of physicians of large experience in treating blood and skin diseases who will take pleasure in siding by their salvice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

THE SWIFT SPECIFIC COMPANY, ATLANTA, QA.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion
